- Learning things
- Solving real problems
- Faster Development cycles

# 01. About me

Hello! I am working with BrowserStack as a Senior Software Engineer. I completed B.Tech in Computer Science and Engineering in 2018.

Strong data structures, algorithms and problem-solving skills, fast learner, technology enthusiast, impact-oriented. I recently got a Mobile Web specialist certification from Google and has also completed Udacity's Mobile Web specialist Nanodegree.

I have been an SDE intern and TA in Algo at Coding Blocks. I have also completed Udacity's Android Developer, Nanodegree by Google. I've completed Machine Learning and Algorithm Analysis and Design on Coursera.

I am driven by challenging, fast-paced, exciting, and educational environments. My areas of interest include web and mobile application development.
